

THE SENATE  
STATE OF NEW YORK  
SENATOR PATRICK M. GALLIVAN  
59TH DISTRICT

April 14, 2022

Congressman Chris Jacobs  
8203 Main Street, Suite 2  
Williamsville, NY 14221

Dear Congressman Jacobs,

I am writing in support of the Lancaster Police Department's request for federal funding for the purchase of body cameras for its officers.

Research has shown that police use of body cameras results in increased public confidence in policing and increased officer safety. Video from police body cameras can be useful in proving or disproving citizen complaints against officers and can be an important tool in police training.

This funding will make it possible for the Police Department to provide body cameras for all officers to wear while on-duty. Furthermore, the initiative will increase transparency with the community, one of the primary goals identified in the Lancaster Police Collaborative Plan. Purchasing these cameras will allow the department to complete this key objective, which has the support of the vast majority of residents and community leaders.

I fully support the Lancaster Police Department's request for funding to help facilitate this important public safety effort. Please do not hesitate to contact my office at 716-656-8544 if I can be of further assistance.

Sincerely,

Patrick M. Gallivan  
Senator – 59<sup>th</sup> District

MONICA WALLACE  
Assemblymember 143<sup>rd</sup>

April 19, 2022

Chris Jacobs  
U.S. Representative  
8203 Main Street, Suite 2  
Williamsville, NY 14221

Dear Representative Jacobs:

I write to you to express my strong support for allocating funding to the Lancaster Police Department to purchase body-worn cameras. This funding would allow every LPD officer to utilize a body-worn camera while on duty, which would ensure transparency and accountability in all interactions between LPD officers and members of the public. Video captured by body cameras can be used to either prove or disprove citizen complaints against officers, as well as for police training purposes. Research also shows that police use of body cameras improves public confidence in policing and increases officer safety. The public is overwhelmingly supportive of body cameras, as evidenced by a Cato Institute poll that found 89 percent of Americans strongly support officers wearing body cameras while on duty.

Additionally, last year, the Lancaster Police Department completed the state-mandated New York Police Reform and Reinvention Collaborative Plan with extensive community involvement, input, and review. One of the Department's main goals, as outlined in the plan, is increased transparency, and LPD's first objective toward achieving this goal is the acquisition and mandated use of body cameras by all patrol officers. Therefore, by securing this funding, you would help LPD complete this objective, make progress toward its goals in the reform plan, and improve public confidence in Lancaster police.

Thank you for your time and attention to this important matter. Please do not hesitate to contact me at 716-686-0080 or [wallacem@nyassembly.gov](mailto:wallacem@nyassembly.gov) if you have any questions or concerns.

Sincerely,

Monica P. Wallace  
Member of Assembly  
NYS Assembly

# ERIE COUNTY LEGISLATURE

HON. FRANK J. TODARO

LEGISLATOR

8<sup>TH</sup> DISTRICT

April 18, 2022

Honorable Congressman Christopher Jacobs  
Clarence Office  
8203 Main Street, Suite #2  
Williamsville, NY 14221

Dear Congressman Jacobs:

I write to support the funding of the Lancaster Police Department to purchase body cameras for their officers. This funding would be an excellent use of taxpayer dollars because it would allow the Lancaster Police Department to provide all its officers with body-worn cameras. Police officers using body cameras result in public confidence in policing and increased officer safety. Videos from police body cameras also can be helpful to either prove or disprove citizen complaints against an officer and are valuable for police training purposes.

Therefore, the Lancaster Police Department's utilization of body cameras will provide the officers' safety for themselves and the community and increase transparency between police officers and the community. I fully support the funding of body cameras for the officers at the Lancaster Police Department.

I appreciate your consideration.

Sincerely,

A handwritten signature in blue ink that reads "Frank J. Todaro".

**RONALD RUFFINO, SR.**  
*Supervisor*

April 18, 2022

Congressman Chris Jacobs  
8203 Main Street, Suite 2  
Williamsville, NY 14221

Dear Congressman Jacobs,

As Supervisor of the Town of Lancaster, I support the use of body cameras by the members of the Town of Lancaster Police Department. Research has shown that police use of body cameras results in increased public confidence in policing and increased officer safety.

With an estimated start date of January 1, 2023, the search for funding to pay for the equipment is becoming more critical. The Total Project Cost is \$252,797.00. This project will equip 43 of our police officers, school resource officers and detectives with all associated docking equipment, software, a cloud-based evidence management system, cloud-based storage, and licenses for a period of five (5) years.

Research shows that the public is overwhelmingly in favor of body camera use by police officers while on duty. The New York Police Reform and Reinvention Collaborative Plan of 2021 was developed with extensive community involvement, input, and review. One of the major goals to come out of this plan was increased transparency. The use of these body cameras will do just that.

On behalf of the Town of Lancaster, I ask for your assistance in funding the body cameras for the Town of Lancaster Police Department and appreciate your consideration.

Best regards,

A handwritten signature in blue ink, reading "Ronald Ruffino, Sr.", is positioned above the printed name. The signature is fluid and cursive, with a long horizontal stroke at the end.

Ronald Ruffino, Sr.

April 14, 2022

Christopher Jacobs  
Congressman of the 27<sup>th</sup> District  
8203 Main Street, Suite 2  
Williamsville, NY 14221

Dear Congressman Jacobs,

I am writing to you as the Mayor of the Village of Lancaster, in support of the Lancaster Police Department's request for funding for Police Body-worn Cameras. In 2021, I was a part of the committee that worked to complete the mandated New York Police Reform and Reinvention Collaborative Plan. This plan was developed with extensive community involvement, input and review. Under the Lancaster Police Collaborative Plan, one of the main goals for the Department was increased transparency. This goal was supported by our department, our public officials, the committee, and our residents. The first objective to increase transparency was to "acquire and mandate the use of body-worn cameras for all patrol officers".

This funding would be a good use of taxpayer dollars because it would allow our Police Department to provide all of our officers with body worn cameras to be worn while on-duty. The public is overwhelmingly in favor of their required use by police. A recent study by the Cato Institute found that 89 percent Americans strongly support officers wearing body cameras on duty. Research has shown that police use of body cameras results in increased public confidence in policing and increased officer safety. Video from police body cameras can be used to either prove or disprove citizen complaints against officers. The footage can also be utilized for police training purposes.

I strongly encourage you to support this funding request and am certain that the Police Body-worn cameras will keep our officers and our community safer.

Sincerely,

Lynne T. Ruda

April 17th, 2022

Congressman Christopher Jacobs  
8203 Main Street  
Suite 2  
Williamsville, New York 14221

Dear Congressman,

As the Mayor of the neighboring Village of Depew, NY, I wanted to reach out to you to express my support of the Town of Lancaster's efforts to secure funding to provide their Police Officers, School Resource Officers and Detectives body cameras (43) and all of the associated docking equipment, software, cloud-based video storage and licenses for a period of five years. The Village of Depew was able to secure this funding in 2021 that allowed our Police Department the opportunity to do the very same thing.

After participating in the NYS Police Reform and Reinvention Collaborative, it became very clear how important these body cameras could be for both the police officers that wear them as well as the general public as the officers perform their respective duties.

The funding is a great use of taxpayer dollars because it allows the municipalities' residents and business owners to have an increased level of confidence in the quality of policing and at the same time afford the officers an increased level of safety. The Lancaster Police Officers will find out as the Village of Depew's Police Officers did that video from police body cameras can be used to either prove or disprove citizen complaints against them while doing their job. The footage obtained can also be utilized to help train new officers.

I wholeheartedly support the Town of Lancaster looking for sources of funding to provide this very important tool that will increase the level of transparency and safety for their Police force.

If you need any additional information please let me know.

Thanking you in advance.

Kevin J. Peterson

Mayor

Village of Depew

TOWN BOARD

*April 15, 2022*

*Congressman Chris Jacobs  
8203 Main Street Suite 2  
Williamsville, NY 14221*

*Dear Congressman Jacobs,*

*I am writing in support of our Lancaster Police Department request for federal funding to be utilized for the purchase of body cameras for our officers.*

*The utilization of body cameras has been shown to increase public trust in officers and provide increased officer safety. The video obtained during the daily interactions between officers and the general public can be helpful in deciding if any improprieties occurred and can be used to settle resident complaints. Additionally, the video obtained from the cameras during enforcement operations or arrest is often vital evidence used to help prosecute criminal actors. Whether for routine patrols or to be used as evidence, the video obtained from body cameras provides transparency to our community and the justice system.*

*It should be noted that the vast majority of the public, government officers and community leaders support the use of body cameras. This particular purchase of body cameras is also a key component of the Lancaster Police Collaborative Plan, which was completed with local input from our community and reviewed by New York State.*

*This funding request will make it possible for all the Lancaster Police Department Officers to have a camera to wear while on duty. The system being sought provides high resolution video capture and much needed reliability and dependability in stressful situations.*

*As both a Town Board Member and a former federal law enforcement officer with over 26 years experience I fully support this funding request because it will have a positive impact on our town's overall policing objectives.*

*Sincerely,*

*Robert E Leary*

*Council Member*

Dear Congressman Jacobs,

I am writing this letter in support of federal funding to help the Lancaster Police Department purchase much needed body cameras.

Today, body cameras have become a very important and necessary tool for police officers to carry with them. These cameras are a vital resource, providing safety to the officers and anybody they may encounter while on duty that day. Many departments across the country have been using these cameras and they have proven to be extremely valuable.

Recently, the Lancaster Police conducted a town wide survey asking the residents for their opinions and input. The majority felt that body cameras would be a valued and welcomed addition to the department.

In closing, I ask that you please stand with us and consider allocation of federal funds for the purpose of police body cameras. There is nothing more important than the safety of our community.

*Sincerely,*

Williamsville, NY 14221

Dear Congressman Jacobs,

I am writing in support of the Lancaster Police Department's request for federal funding for the purchase of body cameras for our officers.

Research has shown that police use of body cameras results in more effective policing and policy implementation by departments which use them. Video provided by these cameras will make our police department more efficient in carrying out their duties to the citizens of Lancaster. They will provide more information for our department and citizens on daily activities and contact with the public.

This purchase of body cameras will allow for greater transparency within our community and will support our Lancaster Police Collaborative Plan. This is a key objective of this plan.

I fully support the Lancaster Police Department's request for funding to help facilitate this important public safety issue. Please feel free to call me on my cell phone at 716-864-1072 if in need of further assistance.

Sincerely,

[www.lancastervillage.org](http://www.lancastervillage.org)

As you may know, the Lancaster Police Department is requesting funding to purchase 43 body-worn cameras for its police and resource officers. This is written in support of its request for those cameras. For your background, the Lancaster Police Department has provided professional police services to all Village of Lancaster residents since 2003.

From my vantage point as a village resident, and a Town of Lancaster taxpayer, I have personally witnessed members of our hometown force deal with potentially dangerous situations. Moreover, as a member of the Lancaster Village Board, I consistently see the Town of Lancaster Police Department engage with our community. Chief Kam has sent a representative from the police department to every Village Board meeting since I have taken office.

With such insight, I understand that the body-worn cameras have the ability to record and preserve officer methodology and interplay in volatile and otherwise dynamic situations, and therefore, it is my opinion that such devices will serve the best interests of all involved actors.

I am proud to support the request of the Town of Lancaster Police Department, which faithfully serves the Village of Lancaster.

Please do not hesitate to contact me if you have any questions.

Truly Yours,

Tyler Sojka  
Lancaster Village Trustee

Dear Congressman Jacobs:

The Town of Lancaster has grown exponentially in the past twenty years and our Police Officers have encountered a myriad of safety issues in that time. The use of body cameras by Police Officers has been shown to increase public confidence in policing and increased officer safety. I am writing to show my support for funding of Police body-worn cameras.

This is important for our community as it directly correlates to the 2021 New York Police Reform and Reinvention Collaborative Plan in the Town of Lancaster. In this plan, one of the main goals was to increase transparency by acquiring and mandating the use of body-worn cameras for all Police Officers. I am in full support of increased officer safety and the public confidence this funding would provide.

Sincerely yours,

Williamsville, NY 14221

This letter is to support the Town of Lancaster Police Department's attempt to secure funding for a police body worn camera system, through the Community Oriented Policing Services (COPS) Technology and Equipment within the Department of Justice.

This funding would be a beneficial use of taxpayer dollars because it would allow our Police Department to provide all our officers with body worn cameras, to be worn while on-duty. The public is overwhelmingly in favor of their required use by police. A recent study by the Cato Institute found that 89 percent Americans strongly support officers wearing body cameras on duty.

Research has shown that police use of body cameras results in increased public confidence in policing and increased officer safety. As a recently retired, 36-year member of the police department, I can say that in the past 3 – 4 years, our officers have been begging for a body worn camera system. The footage can protect our officers and the public. Video can also be utilized for police training purposes.

In 2021, our community completed the mandated New York Police Reform and Reinvention Collaborative Plan. This plan was developed with extensive community involvement, input, and review. Under our Lancaster Police Collaborative Plan, one of the main goals for our department was increased transparency. The department determined that the first objective to increase transparency was to "acquire and mandate the use of body-worn cameras for all patrol officers". Purchasing these cameras would allow them to complete this objective, which is supported by most of our residents and community leaders.

Thank you for your time and consideration in this important matter.

Dear Congressman:

As the Highway Superintendent for the Town of Lancaster I am writing to you in support of the Town's efforts to secure funding for body cameras and software for the police officers and detectives of the Lancaster Police Department.

I feel that with the resource of having body cameras they will provide more safety and security to our officers and also provide a sense of security to our residents. With review of the software and the videos taken it will be a helpful resource for training new and current police officers within the Department.

I truly support funding for these body cams and would highly recommend these devices as I feel they would help protect our residents and officers.

Should you need any other questions or concerns please feel free to contact me.

Sincerely,

**Re: Funding for Police Officer Body-Worn Cameras**

Dear Congressman Jacobs,

As Lancaster business owners, we rely daily on the experience, the courage, and the unwavering dedication the the entire Lancaster Police Department. The LPD is a bonded group of men and women entirely devoted to ensuring that Lancaster remains a safe, peaceful and welcoming community, always rising in prosperity, generous civic spirit, and thriving in the warmth of community bonding.

In turn, as passionate members of the Lancaster community, we are committed to the full support of Lancaster's finest.

In that regard, we have learned of a funding opportunity available through your office, to provide body-worn cameras for out LPD officers. We truly believe these cameras will facilitate the best interest of the police officers and general public safety, because the final video product will serve as a permanent, contemporaneous record of the circumstances involving police personnel. That very same video footage can also be utilized for future police training purposes.

Thanking you in advance, we sign this letter to urge you to use your good office to ensure such funding to the Lancaster Town Police Department.

Yours very truly,
